

Feed premix comprising amino acids for domestic animal species

Amino Cobstar

contains
chelates 

Guaranteed content: Amino acids, Co- 10%

Description and performance

Amino Cobstar (organic cobalt) is a feed premix prepared on the basis of amino acids for different types of animals. **Amino Cobstar** is produced on the basis of Arkop's proprietary technology involving the use of micronutrient compounds with very high bioavailability. **Amino Cobstar** effectively supplements cobalt deficiencies, ensures correct development of the organism and enhances animal health. The cobalt in **Amino Cobstar** is characterized by very good bioavailability, thanks to which it can very quickly supplement deficiencies of this element in animal diet.

Application of **Amino Cobstar** ensures:

- Lower susceptibility to infections and diseases
- Increased bacterial synthesis of vitamin B12
- Correct synthesis of proteins in the organism
- Proper conversion of nucleic acids
- Correct erythropoiesis
- Better growth
- Activation of the rumen bacterial flora

Composition

- Contains amino acids

Microelement:	Cobalt - Co
Contents:	10%
